Gases

Call Zephyr **877.275.9374**

Zephyr is a trusted supplier of wholesale helium, propane, carbon dioxide, and nitrogen gas for large retail chains and high volume stores all over the world, as well as dry ice, oxygen, medical air, and nitrous oxide. To get a quote, call Zephyr or visit zephyrsolutions.com/get-a-quote.

SKU	IMAGE	DESCRIPTION
HELIUM		<p>Helium Gas</p> <p>Zephyr distributes 99.99% helium gas to major retail chains and high-volume stores all over the world. We are the only helium supplier with a distribution network that touches every city and small town throughout all 50 United States, so we can deliver helium to geographic areas that our competitors simply cannot reach.</p> <p>Learn more or get an online quote at zephyrsolutions.com/wholesale-helium</p>
PROPANE		<p>Propane Gas</p> <p>Zephyr supplies 20-pound propane tanks for floor buffers and burnishers and 33-pound tanks for forklifts. We can fill 500- or 1,000-gallon propane tanks, right on-site. Zephyr can also provide new, key-lock cages to house your propane tanks on your property and ensure you are fully compliant with regulations.</p> <p>Learn more or get an online quote at zephyrsolutions.com/wholesale-propane</p>
NITROGEN		<p>Nitrogen Gas</p> <p>Zephyr supplies 99.99% pure compressed nitrogen gas for the food and beverage industry, brewers and micro-brewers, as well as for fire prevention, suppression, and safety needs. Zephyr delivers nitrogen in 200- or 300-cubic-foot steel cylinders as standard, but can supply alternative size tanks as needed.</p> <p>Learn more or get an online quote at zephyrsolutions.com/wholesale-nitrogen</p>
CO2		<p>Carbon Dioxide Gas</p> <p>Zephyr distributes carbon dioxide gas throughout North America, specializing in the food and beverage industry for controlled atmosphere storage and preservation, as well as drink carbonation. Zephyr delivers in 20- and 50-lb. compressed CO2 gas cylinders, but can accommodate for alternative size tanks as needed.</p> <p>Learn more or get an online quote at zephyrsolutions.com/wholesale-carbon-dioxide</p>

Cylinder transport & safety

Call Zephyr **877.275.9374**

Ensuring our customers meet and exceed all federal regulations during cylinder transport and storage, Zephyr supplies a complete line of cylinder safety equipment. Due to continuous design evolutions, the actual item may appear slightly different in appearance but will always correlate with title and description. View online at zephyrsolutions.com/product-category/cylinder-transport-safety

SKU	IMAGE	DESCRIPTION	PRICE
WB-1		Single Cylinder Wall Mount Bracket This inexpensive, secure cylinder wall bracket is lightweight, small, and can be anchored in tight spaces at your preferred height. The heavy duty safety chain is far more reliable and secure than material straps, so you can rest assured that your space is safe. Federal regulations require that all compressed gas cylinders be safely secured.	Discounted bulk pricing available
WB-2		Dual Cylinder Wall Mount Bracket Safely mount two helium cylinders side-by-side on your wall. This inexpensive, secure wall bracket is lightweight, small, and can be anchored in tight spaces at whatever height on your wall that you prefer. The heavy duty safety chains on the Dual Cylinder Wall Bracket are more reliable and secure than material straps, so you can rest assured that your space is safe. Federal regulations require that all compressed gas cylinders be safely secured.	Discounted bulk pricing available
CS-1		Single Cylinder Safety Stand This cylinder safety stand can accommodate any cylinders from 7 to 9.5 inches in diameter. The cylinder placement band adjusts easily to snugly secure your cylinder without marring or damaging the cylinder itself. The 14-pound metal base on the cylinder safety stand lets you roll your cylinder on and off with ease, which means no more lifting! Furthermore, the Adjustable Cylinder Safety Stand protects floors from dirty or rusty cylinder bottoms.	Discounted bulk pricing available
HT1-2		2-Wheel Cylinder Hand Truck Zephyr's single cylinder 2 Wheel Hand Truck weighs just 23 pounds but has a transport rating of up to 500 pounds. The 2 Wheel Hand Truck features a safety chain that secures your cylinder more safely than material straps.	Discounted bulk pricing available
CS-3		Triple Cylinder Safety Stand Secure three cylinders together and save compared to single and double stands! The Triple Cylinder Safety Stand features a heavy, wide-footed base with metal latches for extra stability. Heavy enough to secure the cylinders, light enough to easily move by yourself. The three 10-inch cubbies fit the majority of all cylinder radiuses.	Discounted bulk pricing available

Helium inflators & regulators

Call Zephyr **877.275.9374**

All Zephyr helium inflators are crafted from solid brass bar stock and are supplied with super seal O-rings. Inflators are dual-tested for quality and come with a 2-year manufacturer's warranty against defects. Due to continuous design evolutions, the actual item may appear slightly different in appearance but will always correlate with title and description.

SKU	IMAGE	DESCRIPTION	PRICE
EC1		Economy Standard Tilt Valve Latex Inflator Zephyr's Economy Standard Tilt Valve Latex Inflator is a horizontal, one-piece inflator with integral cylinder connection threads. The Tilt Valve Latex Inflator is also available with a built-in pressure gauge.	Discounted bulk pricing available
EC1-G		Economy Standard Tilt Valve Latex Gauge Inflator Zephyr's Economy Standard Tilt Valve Latex Gauge Inflator is a horizontal, one-piece inflator with integral cylinder connection threads and a pressure gauge that lets you know when it's time to refill your tank.	Discounted bulk pricing available
BRVG-H		Deluxe Vertical Latex Balloon Inflator with Gauge Zephyr's Deluxe Latex Balloon Inflator features an easy-read pressure gauge that lets you know when it's time to refill your tank. The vertical design protects the tilt valve from damage and the hand-tight connection is simple to use and secure.	Discounted bulk pricing available
BRDUAL-V		Dual Balloon Inflator with Gauge The design of the Dual Balloon Inflator features our downward-angled push valve, which lets you inflate foil balloons fast, with just one hand. The auto shut-off automatically stops the inflation of your foil balloon once it is at capacity. A built-in pressure gauge lets you monitor the helium left in your cylinder. PLUS- the inflator includes a tilt valve to inflate latex balloons as well.	Discounted bulk pricing available
BRFO		Foil Balloon Inflator with Gauge Zephyr's Foil Balloon Inflator is a balloon-filling factory! This deluxe inflator features a hand-tight connection, auto shut-off, and a convenient pressure gauge that lets you know exactly how much helium is left in the tank. This inflator is for use with foil balloons only.	Discounted bulk pricing available

Helium inflators & regulators

Call Zephyr **877.275.9374**

All Zephyr helium inflators are crafted from solid brass bar stock and are supplied with super seal O-rings. Inflators are dual-tested for quality and come with a 2-year manufacturer's warranty against defects. Due to continuous design evolutions, the actual item may appear slightly different in appearance but will always correlate with title and description. View online at zephyrsolutions.com/product-category/helium-regulators-inflators

SKU	IMAGE	DESCRIPTION	PRICE
BRDUAL		Dual Balloon Inflator with Gauge Zephyr's Dual Balloon Inflator with auto shut-off and gauge inflates BOTH latex and foil balloons. Use the tilt valve for inflating latex balloons and for foil balloons, slide the balloon over the push valve on the foil balloon attachment. Inflator shuts off automatically as soon as the balloon is at capacity.	Discounted bulk pricing available
BR-EXTEND		Dual Inflator with Hose Extension Zephyr's latex and foil dual inflator with 12-ft. extension hose includes a built-in hanging hook for the foil inflator. This dual inflator features our hand tight connection and easy-read gauge.	Discounted bulk pricing available
BR6040L		60/40 Latex Balloon Inflator This brass, push-down valve 60/40 Latex Balloon Inflator features our air mixer, which pulls in regular air and mixes it with helium to extend the amount of balloons that can be filled from a single cylinder. The 60/40 Latex Balloon Inflator is perfect for give-away balloons at events because it saves 40% of your helium costs! To fill your balloon with 100% helium, just cover the air intake hole with your finger or a piece of tape! This inflator is ideal for balloons that are 11 inches or larger.	Discounted bulk pricing available
BRDUAL6040		60/40 Dual Balloon Inflator Beyond having the ability to perfectly and safely fill foil balloons using the auto shut-off feature, Zephyr's 60/40 Dual Balloon Inflator includes our 60/40 brass push down valve that mixes air with helium, extending the amount of latex balloons that can be filled from a single cylinder and saving 40% of your helium costs! By simply covering the air intake hole with your finger or a piece of tape, you can instead fill with 100% helium! The 60/40 Dual Balloon Inflator is ideal for balloons that are 11 inches or larger.	Discounted bulk pricing available

Helium transfilling

Call Zephyr **877.275.9374**

All Zephyr helium inflators are crafted from solid brass bar stock and are supplied with super seal O-rings. Inflators are dual-tested for quality and come with a 2-year manufacturer’s warranty against defects. Due to continuous design evolutions, the actual item may appear slightly different in appearance but will always correlate with title and description.

Air inflators

Call Zephyr **877.275.9374**

Zephyr designs and manufactures its own line of durable, fast, high-powered electric air inflators for latex and foil balloons. Due to continuous design evolutions, the actual item may appear slightly different in appearance but will always correlate with title and description. View online at zephyrsolutions.com/product-category/air-inflators

SKU	IMAGE	DESCRIPTION	PRICE
Z-Z60		Z-60 Twister Balloon Inflator The Z60 Twister Balloon Pump is a portable, rechargeable latex balloon pump for twister balloons. It inflates 160-, 260-, and 360-style latex balloons in seconds, and the powerful battery will run for up to 4 hours. Included with the Z60 Twister Balloon Pump is a comfortable shoulder strap that can be adjusted and removed as needed.	Discounted bulk pricing available
INF-F		Foil-Flator Foil Balloon Inflator The Foil-Flator Electric Foil Balloon Inflator is a compact, easy-to-operate electric air inflator that features a convenient hose for the quick inflation of foil balloons for your arches and columns. The built-in, automatic back-flow device makes over-inflating your balloons impossible! Also available in 240-volt version (item no. INF-F-UK).	Discounted bulk pricing available
Z-ZOOM		Zoom! Dual Inflator Designed for the high-speed, simultaneous inflation of latex balloons. It can be operated in the continuous "On" position or it can be activated by pushing down on either valve. The ZOOM! includes extension tips for twister and small- and medium-sized balloons. The ZOOM! Electric Dual Air Inflator is both compact and portable and the cord tucks away conveniently inside the inflator. Also available in 220-volt version (item no. Z-ZOOM-UK).	Discounted bulk pricing available
Z-ZIP		Zip! Electric Inflator The ZIP! Electric Air Inflator is designed for the high-speed inflation of latex balloons and it can be operated in the continuous "On" position or easily activated by pushing down on the valve. The ZIP! Electric Air Inflator also includes a tip extension for smaller balloons. Also available in 220-volt version (item no. Z-ZIP-UK).	Discounted bulk pricing available
BHP BL BHP GR BHP RD		Balloon Hand Pumps Zephyr's Balloon Hand Pumps feature a dual-action airflow that inflates balloons with far less effort than a traditional hand pump. These pumps are 12 inches long and come in red (BHP RD), blue (BHP BL), or green (BHP GR). Zephyr Balloon Hand Pumps are sold by the case, with each of the 72 pumps per case individually packaged in poly bags with hanging header cards.	Discounted bulk pricing available
